

PEERLESS BLACK PB2500-TT TWIN TANK

\$595.00 inc. GST

Peerless Black PB2500-TT 154LPM Direct Drive Piston Twin Tank Air Compressor

The Peerless Black 2500-TT twin tank is designed for the building industry and home handyman, being one of the largest direct drives on the market producing 154 litres of free air delivery per minute, the PB2500-TT also ensures a more compact lightweight compressor that is portable and fits easily in the back of a utility.

Suitable for framing gun and finishing gun but **not** suitable for a coil gun, for a coil gun we recommend using the Peerless Black 14000 belt drive air compressor.

For a light industrial air compressor it packs a lot of punch but it also has its limitations, keep in mind for high air demands you will have to step it up to a bigger air compressor like a belt drive, be sure to check your air tools for the air flow requirements but most importantly use our "Find the right air compressor" tool located on our home page to assist in making the right decision for your air needs.

SKU: PB2500TT

Categories: [Peerless Products](#), [Peerless Single Phase Air Compressors](#)

PRODUCT DESCRIPTION

TECHNICAL SPECIFICATIONS

Air Delivery	154 LPM @ 100PSI
Cylinders	2
