

SAMOA AIR OPERATED 20KG GREASE KIT WITH CARRY HANDLE

~~\$1,299.00~~ **\$1,099.00** inc. GST

Samoa Air Operated Grease Kit

The Samoa 424170 55:1 20kg grease kit is the ideal air operated grease kit for busy workshops where greasing is undertaken all day, every day. The heart of the 424170 20kg grease kit with carry handle is the genuinely heavy duty 55:1 ratio grease pump.

The pump's air motor body and cylinder, manufactured from machine aluminium, enables the pump to handle high density, tacky greases up to NLGI2 even on the coldest mornings.

The 70mm diameter air motor with a 35mm stroke facilitates a high delivery rate of up to 0.9kg of grease per minute ensuring that machinery and vehicles get lubricated quickly and efficiently.

The air motor is capable of operating at a maximum pressure of 140psi (10bar) and the high pressure metal to metal valving in the pump tube will perform faultlessly year after year.

If you're looking for a reliable, trouble free 20kg grease kit with carry handle that will get the job done quickly and efficiently, give the 424170 a go.

PRODUCT DESCRIPTION

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

- Supplied complete with 4m of grease hose
 - Robust, heavy duty construction for extreme conditions
- 55:1 ratio air motor develops grease pressures of up to 7,950psi (532bar)
 - Delivers up to 0.9kg per minute
 - 70mm diameter air motor with 35mm stroke
- Heavy duty 3 jaw coupler ensures a tight and precise grease nipple connection
 - Handles high density, tacky greases up to NLGI2
- Cast alloy dual cylinder air motor won't dent or distort prematurely
 - Quiet operation due to an integral exhaust silencer
 - Single toggle air motor operation ensures a long service life
- Integral filter protects the pump from foreign particle contamination

- Easily adjustable bung adaptor is compatible with a variety of drums and types
- Kit comprises a 55:1 ratio pump, drum cover, follower plate, carry handle, 4m hose, Z swivel and control valve with 3 jaw coupler
 - Manufactured in Spain
