\$180.03 inc. GST

SUNDSTRÖM SMALLTALK ST2 KIT SR324

The Sundström SmallTalk ST2 Kit SR SR324 is a voice communication device for effective speech while wearing a half mask or full face respirator. It suits both [SR100](#) half mask and [SR200](#) full face mask.

The microphone is mounted onto the exhalation valve seat of the respirator. The pocket size loudspeaker can be clipped onto a breast pocket or waist belt. The SR 324 is designed to withstand temperature, vibration, impact, dust and spray. It is water resistant, however, do not subject it to running water, and do not immerse it in water. When used in accordance with user instructions, the respirator continues to provide full protection.

Communicate freely without removing your respirator!

full face mask, and Sundstrom [SR100](#) half mask.

- Communicate freely without removing your respirator
- Clear voice communication through a light-weight, unobstructive loudspeaker
 - Long-lasting standard 9V battery. Widely available, easy to change
 - Pocket-sized amplifier/loudspeaker
- Rugged construction, designed to withstand temperature, vibration, impact, dust and spray
 - Thin, flexible cable can be worn inside clothing
- The microphone is mounted in the valve cap or valve seat of the respirator, which means that it can be attached and removed without any permanent modification or intrusive alteration of the respirator
- The loudspeaker unit can be clipped onto a breast pocket, waist belt or shoulder strap
