SUNDSTRÖM SR200A 307 ATTACHMENT - PC VISOR

SKU: 120-04978

[View Product Online](#)

\$1,968.79 inc. GST

The Sundström SR200A full face respirator provides very high protection at heavy-duty work for extended periods. The respirator offers added eye and face protection, and a higher protection factor than half masks.

- Very high protection factor (NPF 2000)
 - Two exhalation valves
- Valve caps with air diffusion (no clogging during spray jobs)
 - Low weight
- Fabric head harness – no sticking rubber
 - Unique curved visor for very wide and deep field of vision.
- Part of inhalation air is channelled across the visor to minimise mist forming
 - Can easily be fitted with optional SmallTalk microphone and loudspeaker
 - Accepts all Sundström filters and compressed air attachments
- Available with Polycarbonate or Glass visor & natural rubber or cloth head harness

AIR TOOLS WA

The Sundström SR200A 307 PC Visor Attachment is a breathing apparatus that is supplied with a continuous flow of air and is designed for connection to a compressed air supply. The unique feature of the SR 200 Airline is the scope it provides for filter back up. The breathing hose can be released from both the facepiece and the control valve. The equipment can then be used as a filtering device. The SR 200 Airline can be used as an alternative to filtering devices in all situations in which the latter are recommended. This applies especially if the user is doing hard or sustained work, and if the pollutants have poor warning properties or are particularly toxic. The Sundström SR200A 307 PC Visor Attachment is made of materials that are not liable to give rise to sparking when subjected to friction, which enables the device to be used in an explosive or fire-hazardous environment. Control valve, flow meter and warning whistle for temporary and continuous monitoring of the air flow are included.
