SUNDSTRÖM SR586 PROTECTIVE HOOD

Achieve comprehensive head and neck protection with the Sundström SR586 Protective Hood. Designed to integrate seamlessly with Sundström's range of respirators and helmets, this high-quality hood provides an additional layer of defence against airborne contaminants, chemicals, and other hazards, ensuring maximum safety and comfort in demanding environments.

The SR 586 Tyvek® hood is designed for use together with a Sundström [SR 520 Hood](#), [SR 530 Hood](#), [SR 570 Face shield](#) or [SR 580 Helmet](#) with visor, combined with a fan or the [SR 507](#) compressed air attachment. It protects against dust and particles as well as minor amount of splashing and dripping. The SR 586 Protective Hood is made of Tyvek® and can be used in all situations where the SR 520, SR 530, SR 570 or SR 580 can be used. However, it does not protect against toxic, corrosive or irritating vapours or aerosols. The hood is intended for short-term use and is not suitable for cleaning.

Key Features:

AIR TOOLS WA

Perth's Largest Range of Air Compressors and Air Tools.
Industrial Air Compressors, Parts and Service.

Call [1300 062 377](tel:1300062377) or email sales@airtoolswa.com.au

1. **Full Coverage Protection:** The Sundström SR586 Protective Hood offers extensive coverage for the head, neck, and shoulders, providing superior protection against airborne particles, chemical splashes, and other workplace hazards.
2. **Compatible Integration:** Specifically designed to work in harmony with Sundström respirators and helmets, the SR586 Protective Hood ensures a secure and comfortable fit. This compatibility guarantees consistent protection and ease of use.
3. **Durable and Lightweight Material:** Constructed from high-quality, lightweight materials, the protective hood is both durable and comfortable. Its robust design withstands harsh environments while minimizing wearer fatigue during extended use.
4. **Breathable Design:** The hood features a breathable construction that allows for effective air circulation, preventing heat buildup and ensuring wearer comfort. This design is crucial for maintaining productivity and safety in demanding conditions.
5. **Easy Attachment and Adjustment:** The SR586 Protective Hood is designed for quick and easy attachment to your existing safety gear. Adjustable features ensure a snug and secure fit, accommodating various head sizes and shapes.
6. **Chemical Resistance:** The protective hood is made from materials resistant to a wide range of chemicals, providing reliable defense against splashes and exposure. This makes it ideal for use in industries such as chemical handling, pharmaceuticals, and manufacturing.
7. **Enhanced Visibility:** The hood is designed to maintain clear visibility, with a transparent face shield that offers unobstructed vision. This feature is essential for performing tasks with precision and safety.

Equip yourself with the Sundström SR586 Protective Hood to experience unparalleled protection and comfort. Trust in Sundström's dedication to quality and innovation to keep you safe and efficient in every situation.
